

## Texas Department of Public Safety Texas Division of Emergency Management State Situation Report

---

<b>Event Name</b>	May Severe Weather
<b>Date</b>	June 02, 2016
<b>Time</b>	0700 – 0700
<b>Operational Period</b>	06/01/2016 – 06/02/2016
<b>Report Number</b>	7

<b>Regions Affected</b>	
<b>DPS Regions Affected</b>	1, 2, 3, 5 and 6
<b>DDCs Active</b>	4A – Hurst, 13 – Bryan, 16B – Texas City, 16C – Conroe, 16D – Pierce

**STATEWIDE CURRENT SITUATION:** The Governor of Texas declared a state of disaster in Austin, Bandera, Bastrop, Brazoria, Brazos, Burleson, Coleman, Colorado, Erath, Fayette, Fort Bend, Grimes, Hidalgo, Hood, Jasper, Kleberg, Lee, Leon, Liberty, Lubbock, Montgomery, Palo Pinto, Parker, Polk, Robertson, San Jacinto, Tyler, Walker, Waller, Washington and Wharton Counties.

The storm system which is affecting the state is located just south of the Mexico/Arizona border region. Deep moisture ahead of this low exists over Texas and Eastern New Mexico. This weather pattern will be favorable for additional rainfall the rest of the week.

The moisture did combine with one upper air disturbance the past 24 hours to produce widespread showers and thunderstorms over a good part of Northern, Central, South Central and Deep South Texas. A few thundershowers continue over East Texas. Closer to the center of the low, thundershowers continue over eastern New Mexico and West Texas. Scattered areas received in excess of 3.00 inches of rain the past 24 hours, with amounts of 8.50 inches noted south of Kingsville and five inches east of Mason and south of Cumby.

The upper low south of Arizona/extreme Northern Mexico will move very slowly eastward. This will result in more showers and thunderstorms developing, primarily from central into Deep South Texas as well as along and near the Red River over North Texas. The best chance for heavy rain looks to be over South Texas the next 24 hours. This low is forecast to move very slowly into West Texas Thursday so this rain will likely spread across much of the remainder of Texas. Locally heavy rain is again possible in the strongest thunderstorms, especially over South Texas along and near the lower and middle Texas Gulf coast.

Fort Bend County indicated a radar estimate of 2.00 – 3.00 inches of rain across the northern parts of the county. They are currently getting light rain over the western parts of the county but could see additional moderate/heavy rainfall after midnight and before sunrise. Montgomery County (Huntsville and Conroe) show a radar estimate of 5.00 inches of rain so far. It is still raining at an estimated 2.00 – 3.00 inches per hour. The storms are drifting slowly to the southeast parts of the county. Kendall County in the Hill Country also has a cell that is slowly moving southeast along the south side of I-10 and has a radar estimate of 2.00 – 3.00 inches per hour. Montgomery and Kendall Counties appear to be the problem area in the short term.

A very slow moving storm continues to drop 2.00 – 3.00 of rain over northern and eastern Harris County. Up to 6.00 – 7.00 of rain has already fallen on the northern portions of the county with flash flooding ongoing. The heaviest of the rainfall is right along Interstate Highway (IH) 45 and into eastern Harris County. Expect continued flooding across these areas for the next couple of hours. This storm will slowly move into Liberty County where additional flash flooding may occur.

Please visit [www.DriveTexas.org](http://www.DriveTexas.org) or call 1-800-452-9292 for the most updated road conditions.

#### **OPERATIONAL PRIORITIES:**

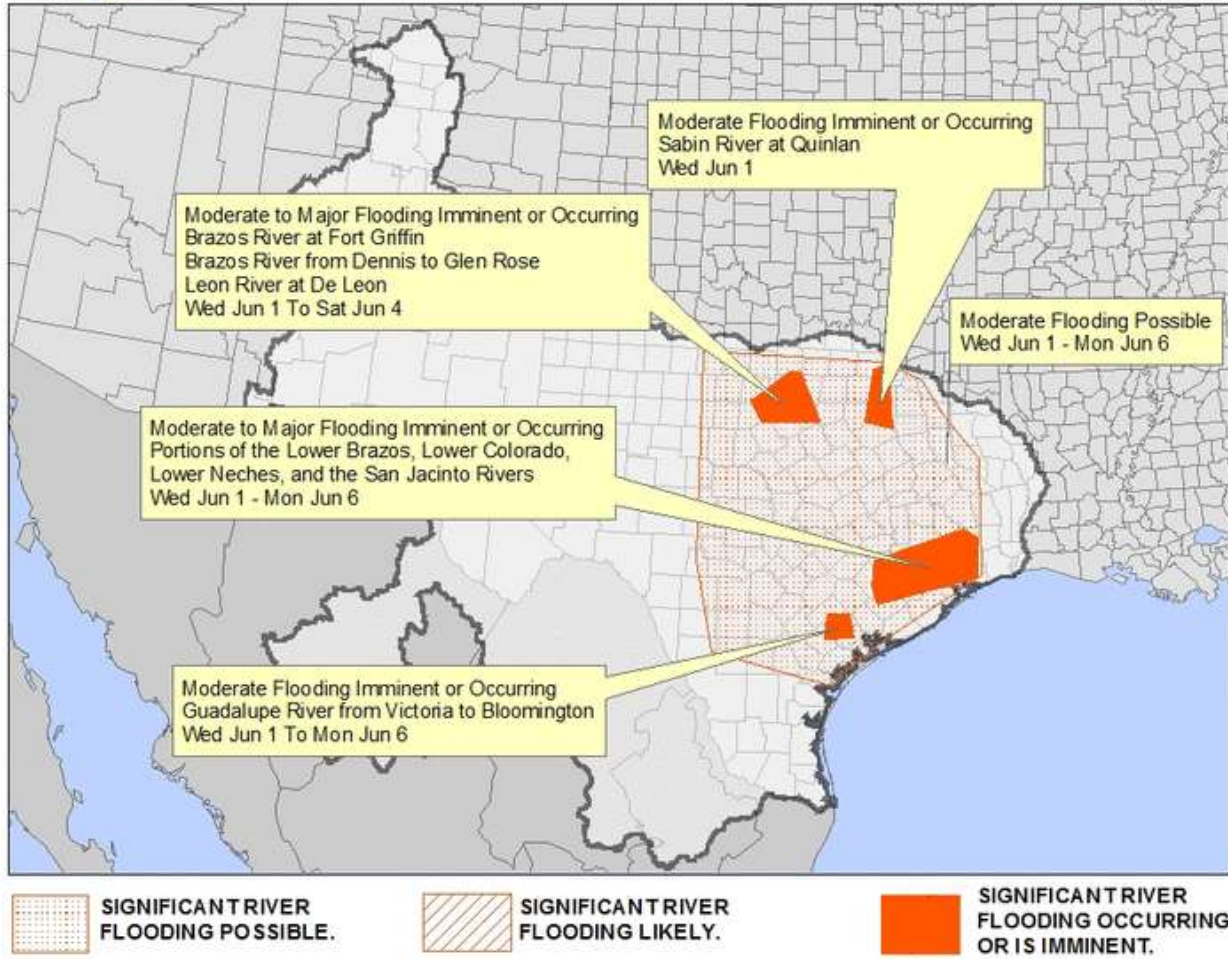

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.

# Significant River Flood Outlook

Valid: 6/1/2016 - 6/6/2016

West Gulf River Forecast Center 6/1/2016 12:10:04 PM

Significant River Flooding Impacts include:  
Roads adversely affected. Residential,  
commercial, industrial, and/or agricultural  
areas affected. May require evacuation of people.

NOTE: Flash Flooding or Minor River Flooding  
will NOT be included in this outlook.

## River Basins:

**Colorado Basin: Major Flooding** – Lake Brownwood will continue to spill water over the spillway. Flooding concerns downstream of the lake will depend on rainfall this week. Lake Travis is releasing excess water from the flood pool. This release will come in after the Flood Wave from last week and will not generate new mainstem river flooding. The Colorado River at Wharton (WHAT2) has crested and will start to slowly recede. Any rainfall over the next 5 days will generate runoff and could generate new river flooding.

**Trinity Basin: Major Flooding** – Widespread moderate to major flooding continues in the lower Trinity River basin with several locations continuing to rise as water moves downstream. For the

upper Trinity, several locations are at minor flood levels. Flood control reservoirs are currently reducing their releases to help mitigate downstream impacts due to flooding.

**Brazos Basin: Major Flooding** – Moderate to major flood conditions are occurring in the Brazos River basin. The record crest on the lower end of the Brazos mainstem has passed through Hempstead (HPDT2) and San Felipe (BAWT2). The forecast point at Richmond (RMOT2) is forecast to crest this afternoon but will remain above major flood stage into next week. The Brazos River near Rosharon is also rising into major flood this morning and will continue rising into the weekend. Levels will be near crest for several days thereafter.

Upstream, another significant Flood Wave is occurring above Lake Whitney due to excessive rainfall yesterday. Major flooding is anticipated on the Brazos River near Dennis (DNNT2) and near Glen Rose (GLRT2).

**San Jacinto Basin: Major Flooding** – Widespread flooding continues across the San Jacinto river basin. Most locations have crested.

**Guadalupe Basin: Moderate Flooding** – Flooding will fluctuate around moderate flood levels from Cuero (CUET2) downstream through Victoria (VICT2) and Bloomington (DUPT2) from routed waters.

**Neches Basin: Moderate Flooding** – Widespread minor to moderate flooding continues in the Neches river basin.

**Sabine Basin: Moderate Flooding** – Minor flooding continues at Sabine River at Deweyville (DWYT2), and higher than normal flows continue for several points along the basin due to recent rainfall and routed flows.

**Nueces Basin: Minor Flooding** – Minor flooding is occurring on the Frio River near Derby (DBYT2).

**San Antonio Basin: Minor Flooding** – Higher than normal flows are forecast for many portions of the basin due to recent heavy rainfall and routed flows.

#### **Region 1 (Includes DDCs 4 Hurst, 4 Garland, 5 Mt. Pleasant, 6 Tyler, and 22 Sherman)**

**DDC 4A-Hurst** (Includes Denton, Erath, Hood, Johnson, Palo Pinto, Parker, Somervell, Tarrant and Wise Counties) – DDC 4A-Hurst is at Level III (Increased Readiness). Texas Department of Public Safety (DPS) Texas Division of Emergency Management (TDEM) District Coordinator (DC) 11/23 Waco is currently working at the Hood County Emergency Operations Center (EOC). Erath, Hood and Parker County EOC's are active.

**Hood County:** Homes and businesses and a church have flooded in Granbury. Hood County Office of Emergency Management (OEM) has requested assistance from the American Red Cross (ARC) in establishing a shelter. High-profile vehicles have been requested and Texas Taskforce 2 (TX-TF2) Type IV Water Rescue Team.

The Brazos River Authority conducted an emergency release from Lake Granbury and as a result Hood County has issued a mandatory evacuation for portions of the Pecan Plantation subdivision.

In the City of Granbury there is continued flooding. The third gate at Possum Kingdom Lake will be opened and increase water flow to Lake Granbury potentially prolonging flooding. In the Pecan Plantation Community, an evacuation is planned if Lake Granbury increases release above 50,000 cfs from the combination of Possum Kingdom opening a 3rd gate and 3.00 – 5.00 inches of rain in the Lake Granbury basin.

Major flooding in Acton and deCordova (Fall Creek) areas of Hood County/Granbury. Two to three feet of water is in homes and water rescues are underway. Local and State assets are on scene assessing and SAR, as required. Shelter remains available as needed. Transportation of evacuees is being arranged, if required.

**Johnson County:** Three inches of rain resulted in over 30 road closures within one hour requiring multiple high profile vehicle (HPV) rescues in the northern half of the county.

**Parker County:** Parker County submitted a Disaster Declaration on 05/31/16. In Horseshoe Bend, an active evacuation will be put in place within the next 24-36 hours due to the gate being opened. Below Dennis Gage the current height is at 28.8' and holding until 06/02/16 before dropping. Two general population shelters are open, one in Granbury and one in Weatherford.

## **Region 2 (Includes DDCs 13, 14, 15, 16 Houston, 16 Texas City, 16 Conroe and DDC Pierce)**

**DDC 13 – Bryan** (Includes Brazos, Burleson, Grimes, Leon, Madison, Robertson, and Washington Counties)

DDC Bryan remains activated at Level III (Increased Readiness Conditions).

Rain has returned with scattered showers with a forecast of 4.00 – 6.00 inches until 06/02/16. Individual Assistance (IA) and Public Assistance (PA) job aid information was provided to Washington County and the City of Brenham. The latest addition of the Public Assistance Program and Policy guide were provided to Grimes, Brazos, and Washington Counties EMC's and County Judges.

District Maintenance continued preparing change orders for repairs and met with contractors on location. Designated staff compiles information for Federal Highway Administration (FHWA) reimbursement. Contractors continue to perform work in Burleson, Washington, and Grimes Counties and three additional roadways are anticipated to be open by 06/02/16. Bridge Engineers continued to inspect structures and have made some discoveries. Maintenance crews from non-effected areas worked in Washington and Grimes Counties to continue in-house repairs and tree removal. Crews are making progress. Lab personnel assembled 100 barricades received yesterday. Texas Department of Transportation (TxDOT) Houston and Yoakum Districts have been notified in the event they need any barricades of the 50 newly assembled ones. District Maintenance is continuing to monitor the weather forecast and at the present time have no unmet needs.

**Brazos County:** Brazos County Emergency Operations Center (EOC) readiness is at Level II (Escalated Response Conditions) and the City of Bryan readiness is at Level III (Increased Readiness Conditions). One road remains closed with culvert damage.

**Burleson County:** A few roads remain closed. Burleson County/City of Somervell submitted a DSO on 05/31/16.

**Grimes County:** Two roads remain closed.

**Leon County:** One road is closed.

**Washington County:** Several roads remain closed.

**DDC 16 – Houston** (Includes Chambers and Harris Counties)

**Harris County: The Harris County Office of Homeland Security & Emergency Management (HCOHSEM):** The Harris County Office of Homeland Security & Emergency Management (HCOHSEM) is currently monitoring a series of severe weather systems that have the potential to cause additional flooding beginning Wednesday night and extending for several days.

Current National Weather Service (NWS) forecasts through Friday night anticipate heavy rainfall of 2.00 – 4.00 inches across all of Southeast Texas with isolated amounts greater than 6.00 inches. If this forecast holds, areas with already saturated grounds and swollen waterways will face potentially catastrophic flooding. Forecast confidence is high though there is no way to predict where the heaviest rain will occur.

Based on this forecast, HCOHSEM is strongly encouraging transportation, law enforcement, and fire service partners to make preparations to help save lives in the event roadways, underpasses and other streets become inundated with high water.

**DDC 16 – Pierce** (Includes: Austin, Colorado, Fort Bend, Matagorda and Wharton Counties)

Sections of FM 1093 and US 59 are closed. Fort Bend EOC at Level I; DDC 16 Pierce at Level III and embedded in Fort Bend EOC. The mandatory evacuation order issued by the city of Wharton is for a small portion of city that is prone to flooding; ARC is working the shelter at the local Boys and Girls Club. TX-TF1 is in Fort Bend County with five swift water rescue squads, one Type 4 US&R team and one water rescue manager; LNO assigned to DDC 16 at Fort Bend Missouri City filed disaster declaration, and the city of Richmond is working on protecting infrastructure. ARC has shelters with population of 10. ARC ordered cleanup kits for Simonton. Pierce DDC is increasing its readiness Level to Level I Maximum Readiness effective at 0700 on 06/02/16 and will be located at 5505 Avenue N. Rosenberg 77471.

**Fort Bend County:** City of Missouri City submitted a Disaster Declaration on 05/30/16. The EOC activated to Level I with a Full Activation on 05/30/16 due to rising water levels in the Brazos River. A voluntary evacuation order was issued on 05/29/16 for the following portions of the City: Lake Olympia Subdivisions – Flamingo Island, Jade Island, Swan Isle, Lake Olympia Streets – Chappell Lane, Peninsulas Drive, Woodlake Lane, Quail Valley Streets – Boca Court, Covey Trail, Kiamesha Drive, Tamarisk Lane, Thunderbird Street

City of Simonton and Valley Lodge issued a mandatory evacuation on 05/28/16.

City of Rosenberg submitted a Disaster Declaration on 05/29/16. A mandatory evacuation was issued on 05/29/16 due to flooding along the Brazos River. Residents of the following areas were ordered to evacuate: North side of the railroad tracks between FM 723, the Brazos River, and 8<sup>th</sup> Street; all properties north of Avenue B and east of 5<sup>th</sup> Street, bounded by 8<sup>th</sup> Street on the eastern side. All properties north of River Road adjacent to the river; and all properties south of Baker Road adjacent to the river. Evacuations for Rosenberg, North of the Brazos River to the Pecan Grove levee. Massive flooding of the floodplain across Fort Bend and Brazoria Counties is expected with flow breaching the watershed divide south of Sugar Land and pouring into Oyster Creek. Significant back water flooding along tributaries in Fort Bend and Brazoria Counties is likely.

All residents and visitors in the designated areas are advised to evacuate as expediently as possible before the effects of the Brazos River flooding begin to bring high, rapidly moving, water to the area as referenced above.

Six Lamar Consolidated Independent School District (CISD) schools are closed on 06/02/16 due to rising water concerns.

**Wharton County:** The City of Wharton and Wharton County submitted a Disaster Declaration. Wharton County submitted a Disaster Summary Outline on 05/30/16.

**DDC 16 – Texas City** (Includes: Brazoria and Galveston Counties) – DDC 16 – Texas City is co-located at the Brazoria County EOC.

**Brazoria County:** The County EOC is at Level II. The County filed a Disaster Declaration with the cities of Angleton and West Columbia. West Columbia and Angleton had rescinded a State of Texas Assistance Request (STAR) for sandbag; however, re-submitted a request for sandbags for water treatment plants. They brought in extra equipment to move dirt as they are working to keep water out of the treatment plants. Officials were evaluating high water profile vehicle needs. Water was rising on FM 1462. A phone bank is open for the public at the EOC. Fairgrounds were prepped for livestock, but grounds are almost at capacity; opening two additional animal shelters. Shelters are open in Lake Jackson and Angleton and Rosharon is preparing to open a shelter. A planning meeting was held Monday morning to discuss what additional resources are needed.

City of Lake Jackson: The Brazos River is forecasted to crest at nearly 54 feet at the Rosharon Gauge this coming Thursday. This is substantially higher than the 51.7 feet experienced in the 1991/1992 flood. Residents living along Oyster Creek were asked to remove all loose items below the high bank and move them to higher ground. City crews pre-positioned pumps at key locations along Oyster Creek. The main effects of this flood will be felt by late this coming week.

Brazoria County submitted a Disaster Declaration on 05/31/16.

### **Region 3 (Includes DDC's 19, 20, 21, 24)**

**DDC 21 – Weslaco:** DDC 21 Weslaco has increased its level of readiness to Activation Level III to support local jurisdictions in response to the severe weather that impacted areas within the City of Hidalgo, City of Mission, and City of Granjero. Significant weather is forecasted in the next 24-48 hours. Willacy County EMS has changed AMBUS deployment status to mission capable on Alert. Power outage at CHRISTUS Hospital in Kingsville may require possible evacuation.

Damage associated with an EF-1 tornado that crossed the south side of Kingsville was found from Dick Kleberg Park across Hwy 77 and down FM 1717. The damage path was approximately 2.5 miles long. Numerous large trees and utility poles were snapped at their base, a set of bleachers at the park were tossed 300 yards, shingles were damaged from homes and a portion of the metal roof was blown off. Peak winds were estimated at 80 to 100 mph.

### **Region 5 (Includes DDCs 1, 2, 3 and 7)**

**DDC 2-Lubbock** (Includes Bailey, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lubbock, Lynn, Motley, Terry and Yoakum Counties)

**Lubbock County:** Water is rapidly flowing over Frankfort Avenue onto the golf course between 19<sup>th</sup> and 34<sup>th</sup> street. The road is nearly impassable.

**DDC 7 - Abilene** (Includes Brown, Callahan, Coleman, Comanche, Eastland, Fisher, Haskell, Knox, Kent, Jones, Mitchell, Nolan, Runnels, Scurry, Shackelford, Stephens, Stonewall, Taylor and Throckmorton Counties):

DDC 7 Abilene is now at Level II (Escalated Response Conditions). Texas State Guard personnel are working in the EOC supporting administrative needs.

Areas of DDC 7 – Abilene experienced widespread flood and wind damage. Several roads are underwater, and parts of US 180 and US 183 are flooded. The water plant serving Breckenridge is expected to be out for five days; working on solutions to provide safe water for impacted residents. City of Coleman EOC is activated. Some evacuations are in place in Breckenridge along the Gunsolus Creek. A STAR request was submitted for TMD personnel support. Volunteer agencies such as Salvation Army and American Red Cross have been assisting residents with food, water, and other forms of assistance. There are no new requests for assistance and no unmet needs have been identified.

**Brown County:** Pecan Bayou water levels are at 15', which is flood stage. Waters rose to 15.2' overnight, resulting in twenty affected businesses along Commerce Street, and two apartment complex evacuations. American Red Cross (ARC) has sheltered one individual via hotel voucher. The city has a shelter available, but no population. No injuries or fatalities have been reported and there have been no water rescues conducted. The platoon of high profile military vehicles is anticipating demobilization due to receding water.

**Callahan County:** Numerous roads are impassable, a number of bridges/culverts are damaged, and the additional 2" rainfall this afternoon created additional flooding issues but there are no new reports of damage. Disaster Declaration submitted on 05/31/16.

**Coleman County:** Damage to electrical utility infrastructure, impassable / damaged roads, and persistent flooding are reported. Damage assessments have begun.

**Comanche County:** Comanche County submitted a Disaster Declaration on 05/31/16. Comanche and DeLeon Independent School Districts (ISD) will be used in case of an evacuation.

**Eastland County:** Flooding is reported in areas surrounding Lake Cisco and Lake Leon, as well as in the cities of Cisco, Eastland, and Rising Star. City of Cisco submitted a Disaster Declaration on 05/31/16.

**Stephens County:** The Gonsulus (Gonzales) Creek appears to have crested below the elevation of highway bridges. Big Sandy Creek has been on the rise but does not appear to be creating additional issues. The shelters in Breckenridge are closed due to a lack of population.

**Taylor County:** City of Tuscola sewer pumps are struggling to keep up with the influx of water. Citizens have been asked to conserve water waste. Lake Abilene lacks 2 ½' to reach spillway.

#### **Region 6 (Includes DDCs 11,12,17,18, 23)**

##### **DDC 12 – Austin**

**Hays County:** Heavy rains in the area have caused rising lake levels in the eastern part of Hays County near Goforth Road and High Road. Emergency officials are preparing for possible flooding that may impact homes and property in communities near the Goforth/High Road Dam. Plum Creek Conservation District is releasing water in that area, which will likely affect the following roads: Cotton Gin, Bunton Lane, Dacy Lane, S. Plum Creek, and Gristmill. In the next few days, more emergency personnel will be in the area, including Hays County Sheriff's deputies, Hays County road crews, and emergency response personnel, including firefighters.

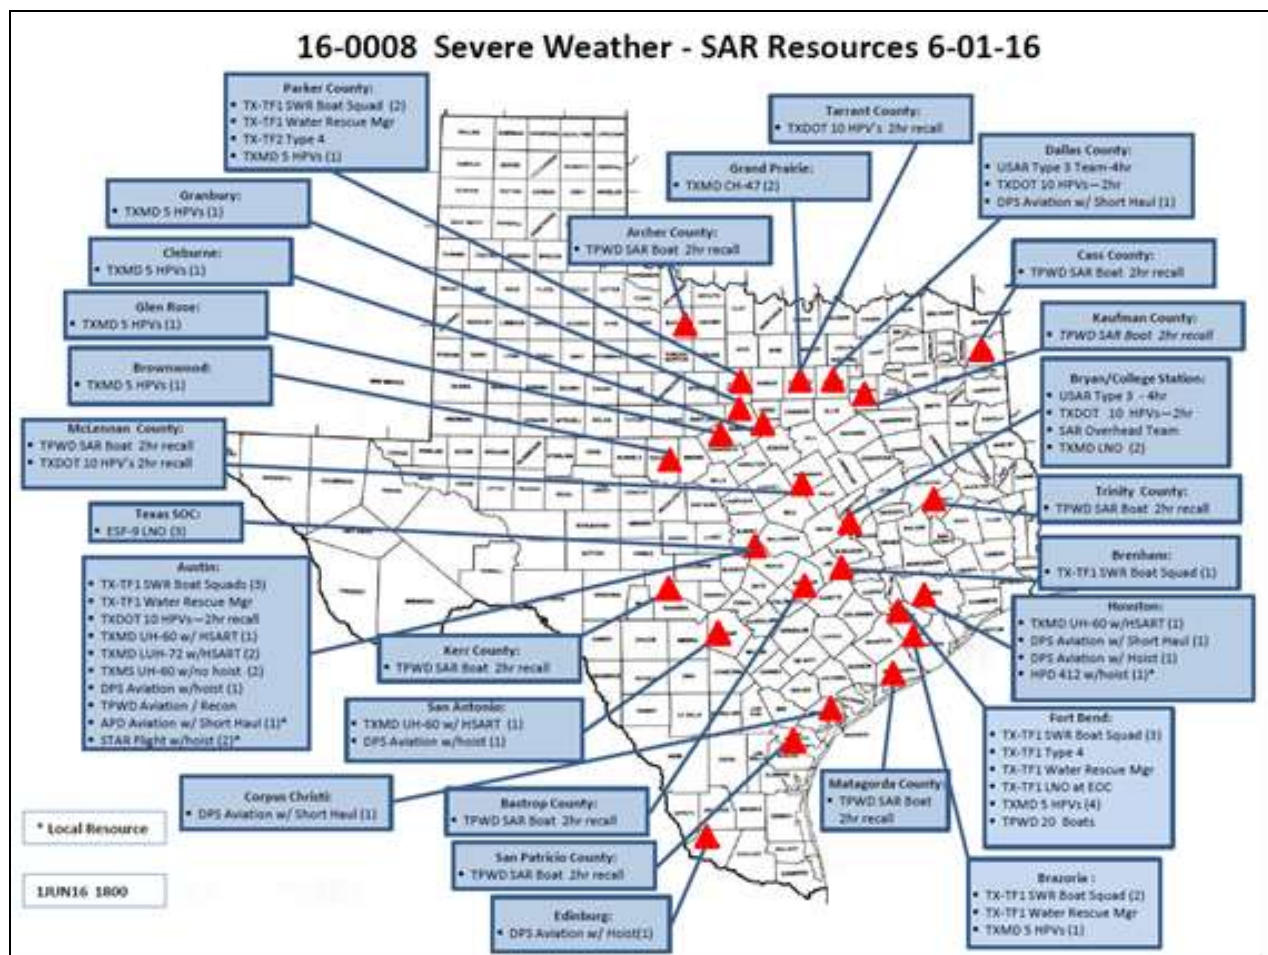

**Travis County:** LCRA has continued operation of floodgates on Mansfield Dam and Tom Miller Dam. Thus, Chief Kerr has extended the waterway restrictions through Noon Friday. The specific ban areas are Lake Austin, Lady Bird Lake and Colorado River downstream of Longhorn Dam.

#### **RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS**

**Texas Parks and Wildlife Department (TPWD):** Forty Game Warden Strike Team are standing with 20 Boats to deploy to the Richmond/Rosenberg for possible levee over-topping and flooding. Strike Team will travel on 06/02/16 and stage in the area for possible response. TPWD Game Wardens statewide remain on standby with equipment for severe weather response. Assets include three SAR boat/crews which are available and stationed in Bastrop, Tyler and McLennan counties. One Fixed Wing Cessna and One A-Star Helicopter are available from the State Pooling Board in Austin. The Cessna is available for over flight and passenger

transport and the A-Star is available for search, surveillance, passenger transport and SAR-Hoist equipped. In Brownwood there are six Game Wardens with 4x4 trucks and three flat bottom boats in the event they are needed for flooding in the event that the waters crest over the dam. Eight Game Wardens with four boats standing by in Brazoria County for Brazos River flooding.

**Texas A&M Engineering Extension Service (TEEX) Texas Task Force 1 (TX-TF1):** Texas Task Force 1 has staged water rescue resources in Fort Bend, Brazoria, and Brazos counties for response to requests for assistance due to flooding as a result of recent heavy rains in Southeast Texas. Water Squads remain ready to respond to jurisdictional requests. Water Squads are positioned in areas known to experience flooding or for rapid response to areas where flooding may occur. Water squads have been responding to flooded areas to assist with rescues and evacuations of residents. TX-TF1 has performed 28 Assists, 29 Rescues, 661 Evacuations, five victim recoveries, contacted 247 citizens sheltering in place and rescued/relocated numerous companion pets and domestic livestock.

**Texas Department of Transportation (TxDOT):** Flooding conditions continue to affect a wide area of the state. River levels continue to hamper road conditions in southeast Texas, Along with heavy rains in the Panhandle, Red River and the Hill Country continue to cause flooded roads in those regions of the state. Districts having the majority of impact due to flooding are:

Brownwood, Bryan, Fort Worth, Houston Lubbock and Paris. Currently there are 199 roadways that are flooded or closed. Bryan District continues to work on repairs to damaged roads. They are also in the process of preparing and executing emergency maintenance contracts for repairs that are beyond their current capabilities. A request for Programmable Message Boards was filled for Fort Bend County. Crews continue to monitor, assess and make repairs as conditions change. Bridge inspectors are assessing bridge structures as necessary. At this time, each district has managed the incident with their resources. Attention is being split between the river flood levels in the southeast part of the state, along with the heavy rain that is affecting roadways in the North and West part of the state. TxDOT continues to monitor and respond to these conditions as they change. TxDOT is internally planning for the forecasted weather event to occur through the weekend.

**Texas Commission on Environmental Quality (TCEQ):** TCEQ will monitor the operational status of the public drinking water and waste water facilities in the impacted flood areas and ensure that all reporting requirements are completed and provide technical assistance and guidance, as requested. Currently, TCEQ has been notified of 23 public drinking water systems that have issued Boil Water Notices in the flood impacted areas. Also, several sanitary sewer overflows (SSO) were reported. TCEQ Region staff is also monitoring other discharges and will assess and respond as needed to any hazardous material incidents that may occur due to the flooding event. TCEQ is monitoring several Dams impacted by flooding.

**Texas Department of Public Safety (DPS):** Texas Highway Patrol (THP) is currently assisting with road closures in the Houston (Region 2) and San Antonio (Region 6) regions as necessary. DPS Aviation has four helicopters available and three air crews will be on standby for calls for assistance in Austin, Houston and San Antonio. DPS Aviation currently has one hoist machine (DPS100 - N145TX) and one observation machine (DPS106 – N40TX) available in Austin. 24 hour coverage this morning and will be adjusted with the weather. Shifts are 6:00 AM – 6:00 PM and 6:00 PM – 6:00 AM.

**Texas Division of Emergency Management (TDEM):** TDEM State and District Coordinators are providing resource coordination and processing requests for assistance by impacted jurisdictions.

**Texas Department of State Health Services (DSHS):** Currently represented at the SOC. Health Service Region offices are in regular contact with local emergency managers, District Coordinators, local health departments, and regional advisory councils. A request for tetanus vaccines for Brazoria County has been filled and vaccines delivered. An Ambulance Strike Team and Ambulance Strike Team Leader have been activated and deployed to support Brazoria County EOC/DDC. Due to 150 miles per hour (mph) winds destroying 50-60 homes in Mission overnight, a medical shelter is being opened with an anticipated population of 10.

**Texas Department Health and Human Services Commission (HHSC):** Employment Service Program (ESP) is in support of Health and Human Service Branch Director. HHSC is on standby to support water and ice operations. Executive Leadership has been briefed on disaster event. Received 743 calls for 2-1-1 in reference to disaster activities. HHSC is providing 24 hour coverage to SOC. HHSC has three staff members on standby for the SOC.

**Texas Military Department (TMD):** Activated 163 personnel, 68 vehicles and four aircraft in support of affected areas. Air assets assigned four helicopters in Austin, Ellington, and Grand Prairie. Supporting TTF1/2 and DDCs 4-Hurst, 7-Abilene, 16B-Texas City, and 16D-Pierce.

### Sheltering Listing

DDC	County	Address	Population
04 - Hurst	Hood	Bridge Street Conference Center 600 West Bridge, Granbury	0
04 - Hurst	Parker	Spring Creek Baptist Church 100 Spring Creek, Weatherford	0
12 – Austin	Lee	Immanuel Lutheran School 382 Grimes, Giddings	35
12 – Austin	Bastrop	Church of Christ 287 Hwy 20, Bastrop	19
12 – Austin	Travis	Parker Lane UMC 2105 Parker Lane, Austin	2
14 – Lufkin	San Jacinto	Shepard Community Center 10251 Highway 150, Shepard	12
14 – Lufkin	Tyler	True Vine Baptist Church 26 US Hwy, Doucette	2
16 – Conroe	Liberty	Calvary Baptist Church North Blair Avenue, Cleveland	2
16 – Conroe	Montgomery	First United Methodist Church 4308 West, Conroe	10
16 – Conroe	Waller	Bible Fellowship Baptist Church 1214 FM 359, Brookshire	5
16 – Houston	Harris	New Light Christian Church 1535 Greens Mark, Houston	1
16 – Pierce	Austin	St. John Lutheran Church 520 N Holland, Bellville	6
16 – Pierce	Fort Bend	First Baptist Church 502 S. 5 <sup>th</sup> St., Richmond	40
16 – Pierce	Fort Bend	River Pointe Church 5000 Ransom Road, Richmond	0
16 – Pierce	Wharton	Boys and Girls Club 2120 Newton Street, Wharton	18
16 – Texas City	Brazoria	Christ Lutheran Church 86 Plantation Drive, Lake Jackson	0
16 – Texas City	Brazoria	Angleton ISD Shelter 1800 S. Downing St., Angleton	0
20 – Corpus Christi	Kleberg	Presbyterian Pan American School 223 FM 722, Kingsville	0

**Texas A&M Forest Service (TFS):** Continuing to staff Emergency Services Branch at the SOC filling the roles of Emergency Services Branch Director and Deputy Emergency Services Branch Director; as well as the Critical Information Systems filling the role of two GIS Specialists to assist with map development. TFS has pre-identified three Texas Intrastate Fire Mutual Aid System (TIFMAS) Task Forces; two of which that has swift water rescue boats squads. TFS is

supporting IMT functions at Fort Bend County, in conjunction with, DDC 16- Pierce, with six personnel that are filling the following roles: Logistics Section Chief, Resource Unit Leader, Chief of Party, and three support staff for the Joint Information Center (JIC). TFS facilitated the additional Incident Management Team (IMT) needs with three members of the Golden Triangle IMT, filling the situation unit leader, documentation unit leader, and Plans Section Chief; three members from San Antonio Fire a filling support roles for the JIC.

**Texas Public Utility Commission (PUC):** As a result of the severe weather event currently impacting Texas, several utilities continue to experience outages. Customers without power as of 2:45 PM 06/01/16 are as follows: AEP reported approximately 10,000 customers with power. Most of the customer outages are in the Hidalgo and Kleberg counties. 95% of outages should be corrected by 8:00 PM Thursday. The PUC continues to monitor the situation closely.

**Texas Department of Family and Protective Services (DFPS):** DFPS has placed all 10 Regional Incident Management Teams on "enhanced alert" status. Regions in south, south-central, and southeast Texas are in the process of doing welfare checks of conservatorship clients, staff, and residential facilities in or near the flood pool of affected rivers. DFPS is contacting conservatorship families in mandatory evacuation zones in the cities of Richmond, Simonton, Rosenberg, and Wharton (DFPS Region 6A); DFPS has now received its first two calls for assistance for Adult Protective Services clients related to the current flooding incident

**The Salvation Army (TSA):** The Salvation Army Texas Division is preparing to increase its resources in the affected areas to support response efforts across Texas due to the recent severe weather.

In Brazoria County, The Salvation Army of Freeport, in preparation for the forecasted flooding, has a team on stand-by to provide food, hydration and emotional and spiritual care. One additional mobile feeding unit and one Rapid Response Unit was deployed to the area to support feeding and bulk distribution operations. In partnership with Mercy Chefs and county emergency management, The Salvation Army has deployed field kitchen to the Angleton ISD Shelter to support feeding operations in Brazoria County. 300 food boxes, 6 pallets of water and approximately 400 clean up kits have been staged at our facility in Freeport to support response efforts.

In Fort Bend County, The Salvation Army Houston Area Command is establishing an Incident Command Team at Houston International Corps to respond to Fort Bend county by providing food, hydration and emotional and spiritual care. Three additional mobile kitchens and one Rapid Response unit with crews have been deployed to the Houston Area Command to support feeding and bulk distribution efforts for the county. Anticipated response areas are Pecan Grove sub-division, Sienna Plantation sub-division and County Social Services in Rosenberg.

In Brazos County, The Salvation Army of Bryan/College Station continues to provide food, hydration and emotional and spiritual care to first responders and residents affected by the current severe weather. Salvation Army has representation at the City of Bryan EOC and is working closely with the office of emergency management assessing needs.

In Stephens County, The Salvation Army Texas Division delivered water, at the request of DDC Abilene, to the City of Breckenridge due to their water plant not functioning.

In Washington County, Cots, blankets, water and hygiene products have been delivered to the town of Brenham in support of shelter operations.

In Brown County, The Salvation Army of Brownwood provided feeding support to the Brownwood EOC. The Brownwood mobile feeding unit and volunteer team have been activated to support feeding operations in the affected area serving first responders and residents.

In Hidalgo County, The Salvation Army of McAllen has deployed their mobile feeding unit to support first responders and affected residents with food and hydration.

In Hood County, The Salvation Army Granbury Service Unit has 150 clean up kits ready for distribution to those affected by the recent flooding. All Salvation Army units across the division have been briefed of the current situation and have been placed on increased readiness. Salvation Army leadership is closely coordinating with local and state emergency management as well as our other partner agencies.

Total Service to date: Meals 1,732; Drinks 6,471; Snacks 7,830; Clean-up kits 65; Tarps 12; Volunteer hours 367.

**The American Red Cross (ARC):** The Central and Southwest Region and Texas Gulf Coast Region of the American Red Cross has been active since the beginning of the May Sever Weather outbreak providing disaster relief to residents affected by devastating flooding and tornado damage. There are currently 15 shelters open with a population of 152 which is an increase of 33 from yesterday. New developments this operational period: yesterday we opened a shelter in Granbury at the Bridge Street Conference Center which does not have a population and are supporting a partner shelter at the Church of Christ in Bastrop. These shelters will be open 24 hours a day, providing a warm, dry place to stay, food, child care, supporting access and functional needs, animal care, and emotional support for area residents who are not able to remain at their homes due to storms and flooding.

Fixed feeding sites at all shelters. ERVs providing mobile feeding in Travis and Montgomery County. ERVs on the operation=15

The American Red Cross is partnering with the Southern Baptist Convention and Texas Baptist Men's to open two kitchens starting Wednesday, June 1 for the noon meal. Each kitchen will have the capacity to serve 6,000 meals per day. The kitchen locations First Baptist Church 306 S. 10th St. Pflugerville, TX (Travis County) and West Conroe Baptist Church 1855 Longmire Rd. Conroe, TX 77304 (Montgomery County).

Served 856 meals and 220 snacks.

Bulk Distribution provided in Liberty and Grimes Counties through mobile routes in ERVs. Fixed BD sites are at the FBC Richmond (shelter) and the Shepherd Community Center (shelter) Distributed 259 bulk items and 77 clean up kits.

ARC activated a Disability Integration Coordinator on this operation to provide Just In Time Training (JITT) so that our clients have full physical, programmatic and effective communications access to all of our services.

Over the next two days ARC will be conducting a training called "Everyone's Welcome" which is an awareness-raising tool, with fundamentals around integration of access and functional needs of clients and our volunteers and staff. The main objective is getting to 'yes', by asking all clients how they can best support them.

We have licensed trained health and mental health volunteers are working to assist with replacing medications and durable medical equipment at the shelter locations. Planning stages for the Integrated Condolence Care Team to contact officials and families of the eight who lost their lives in this disaster.

This response operation is exploring new app technology called Map to Track to capture our damage assessment info. Damage Assessment is active in Brazos, Bastrop, Fayette, Grimes, Montgomery, San Jacinto, Hood, Parker, Johnson and Waller Counties barring any inclement weather.

Partnering with Government: The American Red Cross is partnering with our government officials attending planning meetings at Emergency Operations Centers in affected cities, counties, and at the state level.

**Texas Animal Health Commission (TAHC):** Staff on standby across the state if needed. Regional resources are monitoring conditions within their response areas.

**Texas Department of Aging and Disability Services (DADS):** Vista Care of Archer City Nursing Home experienced some water entering a side door due to the heavy rainfall. They put down towels, swept the water out, and placed sand bags outside the door to prevent future flooding. No water entered resident rooms and they have not experienced any further issues. DADS continuing to monitor the status of impacted facilities in the impacted areas.

**Texas Department of Assistive and Rehabilitative Services (DARS):** DARS continues to support SOC response operations in impacted areas for potential support to people with disabilities and functions needs support services (FNSS) resources. At this time there are no unmet needs. DARS will continue monitoring for resource and information requests.

**Texas Department of Criminal Justice-Law Enforcement (TDCJ-LE):** Texas Department of Criminal Justice has evacuated approximately 2600 offenders from the Stringfellow and Terrell units. All evacuated offenders are receiving hot meals, recreation, and medications. Offender evacuees with critical medical needs are being addressed. Offender releases will continue as scheduled. The Sayle unit continues to receive water from the city of Albany with TDCJ tanker trucks. The city of Breckenridge is still under a boil water notice. Approximately 4500 sandbags are being delivered to the Ramsey and Stringfellow units and additional loads of sand will be diverted to the Clemens unit to fill additional sandbags. The Glossbrenner unit lost power due to power line down caused by local storms during the night. The unit is operating on generator power but, crews are currently working to restore power. TDCJ officials are monitoring rising water levels in all affected areas to determine the need to evacuate additional units. sand has been requested at the Ramsey complex and the Scott unit to fill additional sandbags. TDCJ officials are monitoring rising water levels in all affected areas to determine the need to evacuate addition units.

**Railroad Commission of Texas (RRC):** Austin Headquarters and nine district offices are monitoring the flood event and responding to reports received within RRC jurisdiction.

**FINAL COMMENTS:** The SOC increased its level of readiness to Level III (Increased Readiness) at 9:30 AM on Friday, and is conducting weather conference calls with local, state, and federal partners and the Southern Region Headquarters of the National Weather Service. The Texas Division of Emergency Management (TDEM) continues to respond as needed and monitor the situation. Additional situation reports will be issued as needed.

**The four levels of SOC activation are:**

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

*This Situation Report can be found on the TDEM webpage at: [www.txdps.state.tx.us/dem](http://www.txdps.state.tx.us/dem).*
